Turborepo

SKILLS

CMS systems

Search engine optimization

UI/UX, Figma

Git

Google Cloud, Stripe

Handling of personal data and confidentiality in accordance with GDPR

Fluent in Swedish and English

Category B driver's license

PROFILE

Fullstack developer with a degree as Webmaster and an ongoing higher vocational (YH) education in JavaScript fullstack development. Skilled in React, TypeScript, WordPress, Shopify, and Wix, with experience creating and maintaining user-friendly, responsive, and scalable web solutions. Practical experience across the entire web development chain, from design and UX to backend, databases, and web servers, complemented by industry-related projects, a LIA internship, and my own client sites. Code and projects are available on my GitHub.

EDUCATION

IT-HÖGSKOLAN

08/2025 - 06/2027

JAVASCRIPT DEVELOPER (ONGOING)

Higher vocational (YH) education focused on modern JavaScript development and fullstack solutions. In-depth knowledge of JavaScript as well as frameworks and technologies such as React, Node.js, and Express. Experience building user-friendly, secure applications for web and mobile, working in agile teams, and understanding the full development chain from frontend to backend and database. Practical experience through live projects and a LIA internship in collaboration with the industry. Planned graduation: summer 2027.

UNIVERSITY WEST

2023 - 2025

WEBMASTER

Broad education in the design, development, and management of websites. Skills in web and UX design, frontend and backend development (HTML5, CSS, JavaScript, PHP, C#), databases, web servers, and IT security. My thesis was a qualitative analysis of AI-related uncertainty and career choice.

KAROLINSKA UPPER SECONDARY SCHOOL

2015 - 2018

AESTHETICS AND MEDIA

Education focused on graphic design, photography, film, and digital media production. Experience with creative work processes, visual expression, and working with digital tools such as the Adobe programs. Supplemented with Mathematics 2b and English 7.
